Present Tense People

Mount St. Mary's College prided itself on being such a diverse campus - a true representation of the Los Angeles area. The people of the Mount community were characterized as being a pool of talented, caring people who work together to make this college what it is. From our latest College President to the residents on both campuses - everyone contributed to the nurturing environment here at the college.

Dr. Doud

The Mount's Newest President

This year, the Mount Inaugurated it's latest President, Dr. Jacqueline Powers Doud, the college's first lay woman President. Dr. Doud was very busy her first year in office, always at Mount events, participating right along-side students.

December Graduates

Paving The Way

Some of our graduates at the Mount depart in December, and for them, a special luncheon was held in the Campus Center. All of the families were invited, staff and faculty attended and the graduates were presented with their diplomas by Dr. Doud.

This luncheon is a family affair, just like the graduation in May. This family enjoys the luncheon in support of their daughter.

Office of the President

Dear Graduates of 2001,

Joy and pride fill our hearts as you complete your Mount journey! As with every conclusion there is a beginning. Commencement means beginning.

As we celebrate each one you and your achievements, I invite you to pause and to reflect on the path we have traveled together. Think of all who have supported your educational voyage at the Mount. Take a moment to thank your family, professors, counselors and friends. Thank yourself as well for responding to the daily challenges of an educational journey soon to be proudly crowned with a college degree.

As you embark on this new beginning, we hope that you will take with you not only your official diploma but also the more intangible enduring values we have called you to embrace: respect for the dignity of every person, including yourself; a belief in your potential and in your God-given gifts; an awareness of and commitment toward greater social justice and peace in the communities in which you live and work. As our mission states, we hope that you view your professional life as service.

It has been a great joy for me personally to observe your growth and maturity and an honor to have shared your journey. All who have known and served you so generously rejoice in your success. College is a life-changing experience. We cherish you and we hope you will always cherish Mount St. Mary's College.

Past Times
Events

At the Mount, it seemed like there was always something going on. Events, like USA's Lunar New Year Celebration or FASA's Expo were fun ways to educate the Mount on different cultures. The annual Halloween Party at the Doheny Mansion was a great event for the children in the surrounding community. There were formal dances for students at both campuses that give the opportunity for a little dress-up and some romance.

Meeting Challenges
Clubs

College was a time to become the best person that you can be. All of the clubs and organizations at the Mount helped students realize their potential by challenging members to become leaders and team-workers, skills that would hold-up to the test of time. As a part of active campus life, clubs also provided the opportunity to create long-lasting friendships that helped to make college some of the most memorable days of our lives.

Defining the Future

Faculty/Staff

The faculty and staff at the Mount are part of the wonderfully rich fabric of this academic community. All who work here help to foster a sense of extended family, where everyone knows one another and feels comfortable to be oneself in the presence of that family. The faculty and staff at the Mount are all special people, much like the school they serve, making the Mount a place where relationships are forged between all.

Dedications

Many of the Seniors choose to commemorate their years here with a dedication page. This page was something that they could design themselves, including pictures of family, friends, anyone whom they wanted to remember or pay a special tribute to. Not only enjoyed by seniors, these pages were a great way for underclassmen to remember the graduating seniors.

B.S.N 2001

These four years have been great! Mount St. Mary's has given me all that I wanted in a college, and has been a wonderful home for the past four years. My fellow classmates and I have been very well prepared to face the world "out there." We have learned the leadership skills that have made us into stronger women. First and foremost, I want to thank God for constantly reminding me that I can do anything I set my mind to. Gracias a mis padres por haberme apoyado en mis decisiones y haberme dado la confianza cuando decidí estudiar un semestre en España. I want to wish all of my friends the best in life, especially those graduating with me. I hope that you achieve all your future endeavors and may you find happiness and health in your journeys... Congratulations Class of 2001! Love, Celina

I would like to thank God for letting me see this day, the day that I will graduate from College. I would like to thank my family, especially my parents that have supported my decisions. It has taken my parents' years of hard work to keep me studying. I would also like to thank Maria, Celina, Jessica, the other girls, Michelle Lewis and all of my instructors for all their patience with me. Thanks everyone, Cynthia.

Friends Forever
Amigas Para Siempre

Jessica & Cynthia

Friends are the sunshine of life.

Friendship soothes the soul.

A friend comes in when all the world has gone out.

In friendship we walk more miles together than even the poets dreamed possible.

The path to friendship is marked by many glorious discoveries.

A friend is a person with whom you dare to be yourself.

—Frank Crane

Begin the day with friendliness, keep friendly all day long.

Friendships that have stood the test of time and change are surely best.

—Joseph Parry
